### MODEL 3100

Single light has low profile appearance with automotive texturing.

A gimbal provides 360 degrees of light beam movement.

A polished reflector provides a brilliant light source.

A trip plate covers the mounting screws.

Available colors include black and gray.

Meets UL 234 specifications.

### MODEL 2100

Double light has all the features of the single light.

Two lamps on gimbals, with separate ON/OFF switches, provide 360 degrees of light beam movement.

Available colors include black and gray.

Meets UL 234 specifications.
