At last, a POWER SUPPLY designed to allow the use of all VIDEO GAME SYSTEMS in a mobile environment!

Designed to be rugged, yet compact and reliable, our VIDEO GAME CONSOLE MOBILE POWER SUPPLY provides clean filtered power to operate any GAME CONSOLE.

The AP-GA-011 includes a 2.5mm plug and is a perfect fit for our GAME PREP KITS as it will work with all our previous and current models - from our NP105 SERIES to our HP SERIES.

This unit supplies quiet, noise-free operation with a metal enclosure and circuitry designed to eliminate video interference normally associated with many inverters.

Features include:

- COMPATIBILITY WITH ANY 110 VOLT VIDEO GAME SYSTEM
- FUSED, PROTECTED UNIT
- GROUNDING A.C. PLUG
