ATC is proud to introduce this new combination compass and outside temperature display system. Introduced at the SEMA annual exposition in November, 1999, it received the Runner-up Award as BEST NEW ACCESSORY PRODUCT 2000.

Feature packed system includes:

- Vacuum fluorescent display
- In-dash or console mountable with abs bezel to conceal screw
- Easy touch buttons for simple calibration-mode and fahrenheit/celcius
- Remote sensor for accurate compass readings
- Moisture-proof remote sensor for accurate outside temperature readings
- Sleep mode-one touch, 10 second display of compass/temperature with ignition off
- EPROM stored memory-no need to recalibrate after removing/reconnecting power source
- Complete kit with sensors, cables, and instructions
