ATC is proud to introduce this new combination compass and outside temperature ceiling mount system. Introduced at the SEMA annual exposition in November, 1999, the compass received the Runner-up Award as BEST NEW ACCESSORY PRODUCT 2000.

This contoured console was designed to compliment our Award winning Compass/Temperature System. The compact design will allow for a multitude of mounting applications.

The vacuum formed pod is also paintable to match most popular O.E.M. colors.

Unit is shipped complete with mounting fasteners. (Compass Kit AT-COMP-02 required)

3-YEAR/36-MILE
