A.B.S. HOUSING/BEZEL  
+10V DC TO +16V DC  
-40C TO +85C

Now you can offer everything your customer needs for entertainment on the run! The A/V GAME PREP KIT gives your customer an easy to use, safe and reliable method of hooking up their favorite video game system.

Compatible with SEGA™, NINTENDO™, SUPER NINTENDO™. (SONY PLAYSTATION™, NINTENDO64™, and DREAMCAST™ require an optional power supply - all other systems work with the included tri-way power cord.)

The optional REGULATED POWER SUPPLY★ is available as an in-dash installation with a male cigarette plug or with a 2.5mm male DC plug, which interfaces with our wall mount GAME PREP KITS. Either way, your vehicle is ready for mobile entertainment!

ATC also offers controller cordset extensions and are available in 6' and 15' lengths. These are used for extending your hand-held controllers to remote locations in the vehicle - behind the walls or just a simple extension supply.
