

Look at American Technology... See the Difference.

NINTENDO 64™ 12VDC POWER SUPPLY -- NOT AVAILABLE

p/n AP-GA-006
with 12v power plug

p/n AP-GA-007
with 2.5 mm dc plug

Now you can take the *hottest* video game system on the road!

The new 12VDC Nintendo 64™ power supply along with your game system will provide hours of trouble free operation.

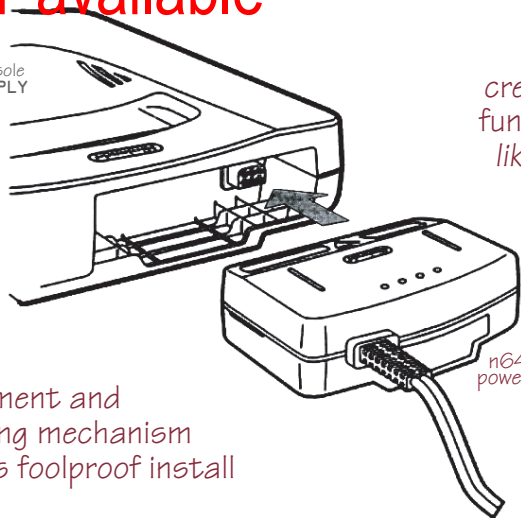

We designed this unit to meet the harsh automotive requirements, and have developed a bullet proof 12VDC supply that “locks” directly into the game console.

We also offer other N64™ accessories such as extension cordsets for the game controllers (6 ft. & 15 ft.) and wall mount game prep kits for permanent system installation.

We can also discuss some creative ways to provide N64 “ready” Vehicles.
